

Eurobeat is Fantastic - Second Stage

Thank you for staying patient for this release.

This was more than 3 years in the making and one of my most anticipated projects to date. This almost got stuck in development hell but I decided to get my stuff together back in late 2019 and decided to pick it up again to complete it. It was no easy task, as they were 60 songs, a lot of those not stepped and the marathon was far from finished. As a consequence, some of these files are almost as old as early 2018, while some are closer to late 2020, which might explain the differences in stepping styles across my own files.

In general, this was a very difficult project. When working on a sequel or a remake of a successful franchise, you have to pay the utmost respect to the original and think twice about everything. Judging that my projects are usually pretty polished & successful and seeing that EIF1 was probably one of the biggest hit packs in stamina ever made (and still is today) there was a huge mental barrier to overcome in order to finally be done with it. (get over the barrier, giddit ?) I felt a lot of peer pressure, always positive and caring, but I really needed to let down the heat because I was starting to get crushed by everyone's expectations, including mine. With the mix especially, EIF1 set the bar so high I lost count of how many times I had to give up and redo the entire thing because of frustration, impostor syndrome, or because I felt it was underwhelming in comparison to the first one. The shadows of my own works were starting to be visible to my eyes and started to have an impact on my work, hence the complete lack of news for the longest time about this project.

Now that this is over, I feel very emotional and relieved that this is looking like a proper follow up on the 2017 pack, which is exactly what I wanted. A lot of close friends helped me reach the end of this, and I thank them from the bottom of my heart. A lot of them have never seen what I've been cooking this whole time as I have been very secret and quiet about it, and I really hope everyone will like it. It has everything to please though so I'm not very concerned : top quality charts, synced by one of the authorities of sync in the ITG world, with doubles stamina charts included (totally new for me), this might even be better than I ever wanted.

Also you might have noticed but this is most probably my last hurrah as a steptartist, as I have no other projects going on for the first time since the start of my journey back in 2016. This means you'll get some files from me from time to time but it is 100% certain that I won't release anything this big ever again. "Retired" might be a strong word but I feel closer and closer to calling myself this way as the months go by. I'm glad the eurobeat chapter is over now for me, and in general I am proud of my numerous contributions to the scene and this gives me the occasion of leaving on a high note, which is too good and rare for me to pass on. I hope you'll understand.

My other journey as a music producer is taking a lot of time and I can't balance my life very well with stepcharting in the equation anymore, and thus I decide to take a rest from regular simfile writing, to let younger talents take the spotlight :) I will still be present at the different dance games gatherings, and I'm still willing to create new music content for the game, just not to the extent where this is my main gig anymore.

So, as a way to sum this up, this represents hundreds of hours of my life, probably thousands of writing experience, so I hope the wait was worth it, that this pack will stand the test of time as well as the first one.

I've just been in this place before, yours sincerely, Rémi

Release date : 05 February 2021	
Music genre	Eurobeat
BPM Range	140 - 165
Doubles charts	Yes
Difficulty range (Low - SX - DX)	10 - 18 - 15
Main artists	Rems Zaia - Chief Skittles - ITG Alex
Doubles artist	T.Swag
Total song length	~6 hours

Extra special thanks to :

- Zaia for being a prime contributor to this legacy
- T.Swag for the awesome doubles files which he provided in a very timely fashion
- Chief Skittles for helping on several lowers as well as providing a great file
- Alex for his contributions
- mute for syncing the whole pack, something I could have not done alone for sure
- Sudzi for providing GFX, expecting expectations as always
- Archi for providing breakdowns and cheering me up so often
- Okami for his invaluable feedback and kind words.
- A lot of friends for their support from Spain, Russia, USA, everywhere else, you know who you are.
